

MBBS in Nepal

In Nepal, duration of MBBS in Nepal is of five and half years. First four and half years are dedicated to theoretical study of basics of medical sciences, and clinical study. In the last one year students have to go through internship programs in clinics of hospitals of the college or university. This course also has scope of elective study and also offers options of placement on completing the course.

About Nepal

Federal Democratic Republic of Nepal For MBBS in Nepal is a sovereign country located in the Himalayas. The mountain range, in the north part of the country, has eight tallest mountains in the world, including that of Mount Everest. The birthplace of Lord Buddha that is Lumbini also lies in this region. This is considered to be one of the famous pilgrimage spots in the world. The capital of the country is Kathmandu. It is known for its multi-ethnicity and multi-cultural background.

History

The name of the country is mentioned in the Vedic texts. Scholars believe that the name of the country has derived its name from the Newar Kingdom. Monarchy is an integral part of the history of the country. From 18th century to 2008, Shah Dynasty ruled the country. In 2008, monarchy was ultimately abolished, and a democratic republic was established.

Geography

NATIONAL ACADEMY OF
MEDICAL SCIENCES

Two neighboring countries of the country are India and China. There are over 240 peaks in the country that are 20,000 feet above the sea level. The landmass of the country can be divided into three parts, the mountains or parbat, hills or pahad and terai.

Why Nepal

Nepal is a preferred location, especially for Indian students owing to a number of reasons. The quality education provided by these institutes, competitive fee structure, and less complicated documentation are among few reasons, for Indian students choosing this country for higher education. Moreover the food habits, culture and lifestyle is matched to a great deal with that of India. Unlike other countries, you do not require any Visa to study in this country. Many of the colleges are approved by the Medical Council of India and even curriculum of MBBS course is similar to that followed in Indian counterparts. Being an English and Hindi speaking region, Indian students find it easy to communicate with the people of this country.

Universities

Many universities and colleges of the country are approved by MCI. Few reputed medical institutes are Kathmandu University, Tribhuvan University, Patan Academy of Health Sciences and B.P Koirala Institute of Health Sciences. These universities have different medical colleges under them that provide MBBS course to students. Based on the merit, these universities select students for medical courses. Few colleges also provide scholarships to students.

Fees Structures

Medical colleges in Nepal are known to have affordable fee structure. Students need to pay these fees once at the onset of the course. For four and half years they have to pay approximately \$60,000. Apart from this, you need to pay the hostel charges and other expenses.

Admission Process

For enrolling to MBBS course, Indian students have to submit an eligibility certificate to these universities. This is dispensed by the Medical Council of India. International students have to go through a selection test and based on its results, they will be admitted to different universities. This test consists of a rigorous interview process and on clearing these; students are registered with respective universities. Depending on the aptitude and scores, students are selected. Students need to attain the age of 17 years before they seek admission to this course. Though different medical schools have different criteria, but mostly it is compulsory to complete secondary education with subjects like English, Physics, Chemistry and Biology. You need to score minimum of 50% in these subjects. Documents that need to be submitted are a copy of the school certificate examination and a copy of the mark sheet. Along with a copy of passport; recent photographs and a medical certificate need to be submitted to the respective medical school.

Hostel

Separate hostel accommodations are provided to boys and girls. These hostels are located within the campus. It is compulsory to stay in these hostels. Students have to pay the fee or hostel charges once for the four and half years. During internship, students can pay their hostel charges from the internship allowance that they get. Students are not allowed to change or shift hostel, once they are admitted to it. The hostel management is responsible for taking care of security of students, cleanliness, providing good canteen facilities and regular water and electricity immediately.

Transportation

Owing to the mountainous terrain, construction of the road is difficult and incurs huge expenses. Majority of the inhabitants of the country have to travel to reach the main roads. Aviation is the only resort for travelling within the country and overseas. Nepal has 47 airports with paved runways.

Food

Staple diet of Nepal is dal bhat. In the hostel and university canteens, students can avail Indian food also. Be it your choice of vegetarian food or non-vegetarian food, you can opt for both in these canteens.

Climate

There are five climatic zones in the country. The country enjoys five distinct seasons. Those are spring, summer, monsoon, autumn and winter. Terai region has tropical and subtropical climate.
